M E M O R A N D U M

TO: Phil Waterman  
FROM: Phil Anderson  
DATE: March 19, 1975  
SUBJECT: 1019 Game

You will soon be receiving Game #1019 (so called Wheeler Dealer). Geoge Hubbard discovered a loop circuit in the payout system but he was too late to get all games changed. Enclosed you will find a drawing plus step by step instructions to make this change, please be sure to check out all of the machines.

Please advise me of how many games you have, and I will send the new and corrected drawings.

Best Regards,

*Phil*

Supplement

INSTRUCTIONS FOR 1019 REEL DISC CARD CHANGE

- 1) Add jumpers on reel disc #1 as shown on W 1041-2477 modified.
- 2) Remove wires 54 and 56-1 from reel card #3 and route them to reel card #1 (they are too short and will need to be spliced).
- 3) Solder wires 54 and 56-1 to added terminals on reel card #1.
- 4) Solder two (2) wires, numbers 57 and 48 to reel card #1 as shown on W 1041-2477 modified.
- 5) Route wires 57 and 48 from reel card #1 to reel card #3, solder as shown on W 1041-2479 modified.
